

## If you have never used Zoom

Here's how to download and sign into the Zoom desktop application using WSU's Single Sign On (SSO)

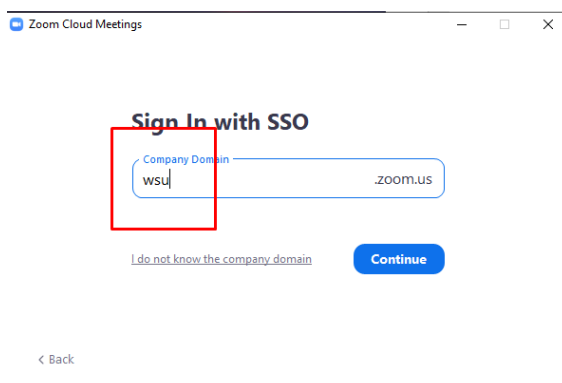

- If you have not already done so, go to <https://wsu.zoom.us> and download/install the Zoom application appropriate to your computer system

- After installing, launch the Zoom Clouds Meeting application and click the **Sign In with SSO** button

- In the field where it says "your company domain" enter **wsu** and click continue.

- Your web browser will launch and take you to WSU's single sign on page at <https://login.wsu.edu>

### Network Authentication

Username

[Need help signing in?](#)

- Enter your WSU username and password in the fields provided.
- Your browser may ask you for permission to launch the Zoom application
- The Zoom application will open
- Confirm you are logged into Zoom from a WSU email address by clicking your profile picture in the top right hand corner of the Zoom application.

The screenshot shows the Zoom desktop client interface. At the top, there is a navigation bar with icons for Home, Chat, Meetings, and Contacts, along with a search bar and a profile picture icon. A contact card for Rob Baker is open, displaying his name, email address (rob.baker@wsu.edu), and a 'LICENSED' badge. Below the name is an 'Add a Personal Note' button, and below that is a 'Settings' button. The contact card also shows status options: 'Available' (selected), 'Away', and 'Do Not Disturb' (with a time range of 5:00 PM - 8:00 AM). A dark blue system clock overlay is positioned in the bottom left corner, showing the time as 7:11 PM on Sunday, April 05.
