I have been made aware that our college's Department of Community and Behavioral Health is considered a non-academic tenure unit at WSU. Admittedly, I am unsure of the designation difference, but this seems perplexing for a faculty-appointment-granting department the Board of Regents approved as the Department of Community and Behavioral Health in November 2020. I am not sure what the impact is to the unit or the college and would appreciate your expertise in this matter.

Additionally, given our need to create the undergraduate behavioral health courses for the BS Public Health degree, I am now requesting confirmation that CBH be recognized as an academic unit at WSU. Please let me know if there are any other requirements to support this request.

Thank you,
Jim
