RE: Master of Science in Sustainable Aviation Fuels

The Faculty Senate Library Committee discussed the proposal for the Master of Science in Sustainable Aviation Fuels for the WSU Global campus on March 19, 2025. As this is an extension of a current program, we do likely have adequate resources, but we feel it is important to note that we are dealing with a large (approximately \$750,000) collections budget cut in this current fiscal year and given the budget outlook, we anticipate more cuts next fiscal year that could certainly impact our ability to support this program at current levels.
