FACULTY SENATE

INTRODUCTION

The purpose of the Faculty Senate is to exercise the legislative powers delegated to it, and to make recommendations to the President and appropriate administrative officials of the University and through the President to the Board of Regents on matters affecting the general welfare of Washington State University and its educational, research, and service activities.

The Faculty Senate shall consist of members elected by and from the permanent faculty of Washington State University. The membership shall consist of 2 faculty from each academic college, one representative from each of the branch campuses, and the additional representation for each college shall be determined by a formula: total number of permanent college faculty minus 50 divided by 25. Eight additional members shall be elected by and from the temporary faculty of Washington State University, and one member shall be the president of the Graduate and Professional Student Association.

The Faculty Senate standing committees and their subcommittees have been assigned functions by the Senate to enable the Senate to carry out its purposes as described. The Senate has the power to determine the number and size of its committees and subcommittees and the terms of office of committee members. All Senate standing committees are responsible to the Senate; their subcommittees are responsible to the parent committees. Both the standing committees and their subcommittees may in some cases also report committee views to an administrative officer(s) of the institution. The official year for the Faculty Senate extends from August 16 of one year to August 15 of the year following.

Members of the standing committees and their subcommittees of the Senate, except where the contrary is indicated, are elected by the Senate on the basis of nominations from the Committee on Committees and from the floor. Any individual may be elected by the Senate to its committees, and subcommittees may include members who are not members of the parent committee. A member having completed a full term on a committee, which is two three year terms consecutively, is normally not eligible for reappointment to that committee for a period of one year. Terms of members, other than assigned or ex officio members, are staggered with terms expiring August 15 of the year indicated. Vacancies on Senate committees and subcommittees of less than one academic year will be filled by action of the Senate Steering Committee on nominations submitted by the Committee on Committees. Such action will be reported to the Senate. Vacancies of one academic year or longer will be filled by Senate election.

Chairs of Senate standing committees who are not members of the Senate shall be regarded as non-voting members of the Senate and will be expected to participate fully in its proceedings concerning matters within the jurisdiction of their respective committees. No ex officio members of the standing committees or their subcommittees may serve as chairs. Chairs, unless otherwise indicated, are elected by April 25 for the following year by the committee or subcommittee from among those whose terms continue throughout that year and by those whose terms begin August 16.
Whenever possible, all Faculty Senate committee meetings should be scheduled in facilities which are accessible to handicapped individuals.

Faculty Senate committees and subcommittees are contributors to decision-making in a state agency. Their meetings therefore normally should be open to the public, including representatives of the news media. Exceptions may be made for executive sessions to consider: matters affecting national security, selection or disposal of real estate, or personnel decisions. To improve access, meeting schedules will be published on the Faculty Senate homepage facsen.wsu.edu.

However, it is recognized that some senate committees conduct their business effectively and efficiently over email. SENATE APPROVED POLICIES

General Procedures (Policies) for Senate Meetings:

1. **Notice.** The notice announcing each meeting shall include the agenda for that meeting and the minutes of the previous meeting, and shall be sent to each member of the Senate, to all deans, to department and program chairs, to GPSA Senators, and to members of the Board of Regents. It is suggested that all administrative officers make copies available to interested faculty and students by, for example, posting them in a conspicuous manner or by leaving them with designated secretaries.

2. **Order of Business.** The order of business shall be as follows:

   I. Call to order.
   II. Approval of distributed minutes.
   III. Announcements.
   IV. Additions or changes to the agenda.
   V. Consideration of agenda items.
   VI. Constituents’ concerns.
   VII. Adjournment.

3. **Agenda Formulation.** Items to be considered by the Senate should be submitted in advance to the Steering Committee, which is responsible for setting the Senate agenda. Items of business that are to be submitted for inclusion in the agenda shall be accompanied by documentation and explanation appropriate for the information of the Senate membership. It shall be the responsibility of the Steering Committee to exclude from the agenda proposed items which, in its judgment, lack legitimate sponsorship or adequate documentation, and to defer items which are not urgent and whose inclusion would make the agenda too long. Otherwise it should
normally include all proposed items on the agenda for the earliest possible meeting. Additions to or changes in the agenda may be proposed from the floor at a Senate meeting, but must be approved by a majority vote of Senators present before any agenda items are considered.

All such business added to an agenda may be considered and acted upon at the same meeting except that business which the presiding officer judges (1) to be major in nature and (2) to require an opportunity for investigation prior to final action. Business so judged may be considered at the same meeting but final action shall be delayed to the next meeting of the Senate. No business may be delayed, however, where that delay would be equivalent to approving or defeating the measure.

4. **Information Items in Lieu of Action.** The following items which have been reviewed and approved by a Faculty Senate standing committee may be submitted to the Faculty Senate as agenda information items in lieu of submission for action as follows:
   a. Minor revisions or editorial changes of previously approved or existing policies, programs, documents, etc.
   b. Items for which Faculty Senate notification is required (i.e., externally funded centers, institutes, laboratories).
   c. Items submitted by the central administration for information without a request for Faculty Senate action.
   d. Guidelines for use by standing committees in reviewing courses, programs, proposals, etc.

5. **Senate Action During the Summer or When Classes are Not in Session.** The Senate may meet as needed at any time. During the normal academic periods, the requirements for Senate meetings are given by Article II, Sections 2 and 4 of the Bylaws. During the summer or when classes are not in session, a Senate meeting should be called under the same authority.

6. **Announcements.** Announcements should be submitted in writing for the presiding officer to read.

Effective Date for Changes in Academic Policy:

Changes in academic policy, unless stated otherwise, shall become effective at the beginning of the fall semester subsequent to their adoption by the Senate.

Adopted March 9, 1972

Relationship Between Senate, Standing Committees and Subcommittees:

The business of a standing committee or a subcommittee falls into one of three classes:
1. Functions previously delegated to the committee or subcommittee, that it should simply discharge,

2. Functions that involve minor procedural changes and for which the committee is the expert group. In these cases, the committee should make its decision and act and then inform its parent organization (Senate in the case of a standing committee, parent committee in the case of a subcommittee),

3. Cases that involve policy or major procedural changes and therefore should be forwarded to the parent organization and the Executive Secretary of the Faculty Senate along with the recommendations of the committee. Exceptions to this should occur only in cases where confidentiality is necessary.

The overall principle is that the committees and subcommittees are agents of the Faculty Senate. While the Senate delegates authority for some actions to committees and subcommittees, it should be informed of minor procedural changes and ordinarily should make the final decision on policy or major procedural changes.

**Adopted April 25, 1985**

**Committee on Committees Nominating Policy:**

The Committee on Committees may submit a single nominee for any Faculty Senate committee vacancy. It is recognized that the Committee on Committees undertakes a thorough screening of potential candidates for committee positions and that the Faculty Senate has the option of nominating additional individuals for open positions.

**Adopted October 24, 1991**
